MedSEVa

EUVET-P: European Union Vocational Education and Training – Policy project seeks to bridge the gap between EUVET policy and its application in daily teaching and training practices.

Learn more at:

From collaboration to celebration – the EUVET-P journey continues!

Following a successful transnational partner meeting in Lisbon last December, where partners came together to review national validation findings, reflect on valuable feedback, and strengthen the project's learning units, we are now looking ahead to the next big milestone.

🎉 Don't miss the EUVET-P Final Event!

Join us on **17 June 2026** in a hybrid format (Tallinn & online) and be part of the conversation shaping the future of Vocational Education and Training (VET) in Europe.

Let's continue building stronger, more innovative VET systems together – see you there!

MedSEVa

MedSEVa: Cultivating Sustainable Economies in the Mediterranean through Valorisation of Bushland Ecosystems is an Erasmus+ funded project aimed at promoting sustainable economies and preserving the Mediterranean bushland and maquis ecosystems.

Learn more at:

MedSEVa Highlights: Learning, Tradition & Sustainability

In Portugal, AidLearn and USEarth recorded a podcast exploring how traditional practices and environmental awareness can shape more sustainable ways of living.

 AidLearn also filmed a documentary and interview in Baião with “Infusões com História”, a project turning local herbal traditions into organic infusions rooted in nature and identity. A true circular economy example, it helps preserve biodiversity while reducing wildfire risks.

✨ From knowledge to practice, MedSEVa continues to transform heritage into meaningful learning.

 **The MedSEVa Handbook is now online!**

The MedSEVa Handbook is now available – Addressing current environmental challenges such as climate change, land degradation, and biodiversity loss, the handbook connects theory with real-world applications. It equips users with tools and strategies to support sustainable development, ecosystem resilience, and informed decision-making within the green economy.
